112 125 135 145 160 189 285

For dual meets, the wrestling order is determined by a random draw of weight classes immediately following weigh-ins. The first weight drawn will be the first odd match. Subsequent odd / even matches will follow the traditional order.

SCORER RESPONSIBILITIES

- Record which wrestler is red or green; which wrestler makes the choice at the start of the 2nd and 3rd periods and during tie breaker; which wrestler has the choice of options at the beginning of the 3rd period and overtime periods; and wrestler's choice after opponent's 2nd injury timeout. Know which wrestler has the advantage position anytime the match is stopped;
- When signaled by the referee, record points scored by each wrestler;
- Circle first point(s) scored in the regulation match (for use in Ultimate Tie Breaker position decision);
- Check with the visitor's score keeper to verify the match's points and advise the timekeeper when there is a disagreement or confusion about the score or points on the scoreboard;
- Tell the scoreboard operator the correct score during each match, especially at end of each period and at end of match;
- Record the completion time of each match;
- Present scorebook to referee for team score verification and signature;
- Assistant (Visitor) Scorers: responsible for recording points earned during match and team score; and
- TURN OFF cell phones, music players, etc. during ALL matches.

TIMEKEEPER RESPONSIBILITIES

- Keep the overall time of the match;
- Measure and record the accumulated time for each wrestler when the match is stopped for injury and bleeding time-outs. For injury timeouts: only 2 time-outs may be taken with total time not to exceed 1½ minutes per match; for bleeding timeouts: 5 minutes total time for all bleeding occurrences;
- Measure and record recovery time; recovery time may not exceed 2 minutes per occurrence;
- Notify the referee of any significant situation when the match is stopped and stop the clock; when the match scorers disagree about the score; or when a coach requests a conference to discuss a possible rule misapplication or scoring error;
- Assist the referee to determine if an action or a situation occurred before or after the time clock stopped or the period ended; and
- When visible clock is not available, announce time left & display visual cards at 60, 45, 30, 15 seconds left in match.

One Young Athlete's Death Is One Too Many

Now mCORESM may help you avoid tragedy.

"In the United States, one young competitive athlete dies every three days from unrecognized cardiovascular disorder." — The American Heart Association

No Warning Signs

Most Cardiac deaths occur suddenly to active kids who have never shown a warning sign. What's worse — only after losing a child do most families learn their loss might have been prevented with little cost or effort.

Your school may have AEDs, but most cardiac fatalities occur before a defibrillator can be administered. We believe screening may avoid ever having to use an AED.

mCORE is the vision of Dr. Kenneth Berkovitz who created the company in response to the rising number of cardiac deaths on the field of play at high schools nationwide.

- Board certified in Cardiovascular Disease and Interventional Cardiology
- Board certified in Internal Medicine

Proactive Detection

mCORE was designed to screen student-athletes for cardiac risk.*
A typical evaluation is safely, painlessly performed by accredited technicians in 6 - 8 minutes.

Scan to visit mCORE online

Are You Prepared?

With each Cardiac incident, parents nationwide are asking school districts what they are doing to prevent the next cardiac-related tragedy. What is your answer?
